hereby declare:

That we made and conceived the invention described and claimed in patent application Application Number 10/038,591, filed in the United States of America on January 4, 2002, and titled ANTIBODIES TO INSULIN-LIKE GROWTH FACTOR I RECEPTOR;

That we made and conceived this invention while employed by Pfizer Inc. [for inventors (1) to (4)] and Abgenix, Inc. [for inventors (5) and (6)];

That the invention is related to work we are employed to perform and was made within the scope of our employment duties;

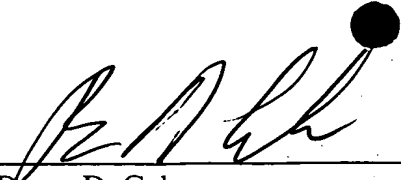

That the invention was made during working hours and with the use of facilities, equipment, materials, funds, information and services of Pfizer Inc. [for inventors (1) to (4)] and Abgenix, Inc. [for inventors (5) and (6)];

That to the best of our knowledge and belief and based upon information provided by Seth Jacobs, Senior Patent Counsel of Pfizer Inc. [for inventors (1) to (4)] and Christopher A. Hare, Director of Legal Affairs and Senior Patent Counsel of Abgenix, Inc. [for inventors (5) and (6)];

That to the best of our knowledge and belief the invention was not made or conceived in the course of, or in connection with, or under the terms of any contract, subcontract or arrangement entered into, with, or for the benefit of the United States Atomic Energy Commission or its successors: Energy Research and Development Administration or the Department of Energy.

The undersigned inventors declare further that all statements made herein of their own knowledge are true and that all statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
